INCIDENT OBJECTIVES	1. Incident Name Soberanes	2. Date 09/13/2016	3. Time 2200
4. Operational Period DAY / NIGHT September 14-15, 2016 0700 - 0700 Hours			
5. General Control Objectives for the Incident (Include alternatives) Management Objectives <ul style="list-style-type: none"> Provide for the safety of all responders and the public by utilizing national Risk Management Standards and the implementation of appropriate mitigations. Reduce firefighter exposure by only engaging fire assignments with the highest probability of success. Engage cooperators and stakeholders to jointly provide for the defense of communities, infrastructure and economic interests. Utilize local resource specialists to identify and protect sensitive sites and cultural resource values by minimizing impacts from suppression operations. Maintain and enhance community, County, State, National Forest and stakeholder relationships through accurate and timely dissemination of information. Assess and implement suppression repair needs, where appropriate in coordination with the Resource Advisor following agency policy. Manage incident costs effectively for the values at risk through regular and ongoing cost analysis. Control Objectives Keep Fire <ul style="list-style-type: none"> East of the Coast Ridge Road. North of Nacimiento-Fergusson Road. West of Carmel Valley and Reliz Canyon. South of current containment lines in Branches I, II and IX. 			
6. Weather Forecast for Operational Period <ul style="list-style-type: none"> High pressure will begin to re-establish with warming and drying forecast for the remainder of the work. 			
7. General Safety Message <ul style="list-style-type: none"> Reduce firefighter exposure by only engaging fires with the highest probability of success. The long term drought in California has produced the potential for extreme fire behavior. The need for maintaining the most current situational awareness is paramount. Expect the unexpected fire behavior!

Soberanes Fire Weather Forecast East Operational Area

Forecast Info

FORECAST NO: 53

NAME OF FIRE: Soberanes

PREDICTION FOR: 0700 Wed - 0700 Thu.

UNIT: CA-BEU/LPF MRD

SHIFT DATE: Wednesday Sept 14th, 2016

SIGNED: Phil Manuel / Jon Bonk

TIME AND DATE

FORECAST ISSUED: 2000 9/13/16

Incident Meteorologists

240-499-6636 – Phil's Cell (Toro) 240-7785287 – Jon's Cell (Hunter-Liggett)

WEATHER DISCUSSION:

**** Warming and Drying ****

The upper low that brought the colder than normal temperatures to the region yesterday and last night will exit to the east today. High pressure will begin to re-establish with warming and drying forecast for the remainder of this week.

WEATHER FORECAST For Wednesday:

WEATHER: Mostly Sunny.

TEMPERATURES: Highs 70-82 active fire area. (10-15 degrees warmer)

HUMIDITY: 15-25%. (down 20-40%)

20 FT WINDS:

RIDGETOP – East/Southeast 5-10 mph. Gusts 15 mph.

SLOPE/VALLEY – Downvalley 2-5 mph through 0900, then upvalley/upslope 3-7 mph.
Gusts 9 to 12 mph in the afternoon.

Marine Layer: 2500 feet.

Haines: 4

WEATHER FORECAST For Wednesday Night:

WEATHER: Mostly Clear.

TEMPERATURES: Lows 43-52 in the valleys. 52-58 ridges. (3-6 degrees warmer).

HUMIDITY: Small recovery 25-35%; potentially dipping to 20% toward dawn Thursday along the ridges.

20 FT WINDS:

RIDGETOP – North/Northeast 5-10 mph. Gusts 12 to 15 mph.

SLOPE/VALLEY – Down canyon 3-6 mph.

Marine Layer: 1500 feet. No impact to the Helibase.

EXTENDED FORECAST: A warming trend for the second half of the week. Highs 75 to 85 Thursday. 80 to 90 Friday and upcoming weekend. Slope/Valley winds will be mainly terrain driven. Ridgetop winds will be primarily out of the North/Northeast, with brief wind shifts from the west at times due to battling onshore winds from the coast.

Portable RAWS Frequency: 163.350 DTMF tones 0032 for Hot Springs, 0033 Anderson, 0029 Blue Rock, 0038 Chew Ridge, 0039 Tassajara, 0031 Benchmark and 0037 Coastal Ridge.

Soberanes Fire Weather Forecast West Operational Area

FORECAST NO: 53

NAME OF FIRE: Soberanes

Forecast Info

PREDICTION FOR: 0700 Wed - 0700 Thu

UNIT: CA-BEU/LPF MRD

SHIFT DATE: Wednesday Sept 14th, 2016

SIGNED: Jason Clapp

TIME AND DATE

FORECAST ISSUED: 1930 9/13/16

Incident Meteorologists

Jason Clapp – Cell 530-383-4839 (West-Molera)

WEATHER DISCUSSION:

***** Warming and Drying *****

Marine layer will try to re-establish today below the coastal ridge, lowering humidity over fire. Upper ridge will warm and dry area Thursday through the weekend. The marine layer may even take a break from the immediate coast Thursday and Friday.

WEATHER FORECAST For Wednesday:

WEATHER: Marine stratus top re-establishing itself below coastal ridge this morning. East to southeast winds overnight into this morning will help dry airmass over burn area by sunrise.

TEMPERATURES: Highs 60-65 active fire area. (Up 7-12 degrees)

HUMIDITY: 20-25% (Down 60-80%)

20 FT WINDS:

RIDGETOP – E/SE 3-5 mph, gusting 8 mph, shift SW-W 6-10 mph, gusting 15 mph.

SLOPE/VALLEY – Downvalley 2-5 mph through 0900, then upvalley/upslope 3-7 mph.
Gusts 9-12 mph in the afternoon.

Marine Layer Top: 2500-3000 feet Above Sea Level. **Haines:** 4

WEATHER FORECAST For Wednesday Night:

WEATHER: Clear, except for clouds on lower coastal slopes. Remaining breezy along ridges.

TEMPERATURES: Lows 45-50 in the valleys. 55-60 ridges. (Up 5-10 degrees).

HUMIDITY: Lowering overnight 30-35% in Higgins drainage...Dipping to 20% toward Thursday morning over ridges w/ easterly winds.

20 FT WINDS:

RIDGETOP – Becoming East/Northeast 5-8 mph after 1900. Gusts 10-15 mph around midnight.

SLOPE/VALLEY – Downcanyon 3-6 mph.

Marine Layer: 1500 feet mainly impacting Highway 1.

EXTENDED FORECAST: A warming trend for the late in the week with marine layer remaining midslope. Highs 70 to 80 Thursday and 80 to 90 over the weekend. Slope/Valley winds will be mainly terrain driven. Ridgetop winds will be more variable with episodic onshore and offshore flow resulting in diurnal wind shifts.

Portable RAWS Frequency: 163.350 DTMF tones 0032 for Hot Springs, 0033 Anderson, 0029 Blue Rock, 0038 Chew Ridge, 0039 Tassajara, 0031 Benchmark and 0037 Coastal Ridge.

UNIT: CA-BEU-LPF	SIGNED: Dan Mindar FBAN

INPUTS

WEATHER SUMMARY:

Mostly clear

Temperatures: Highs: 60 to 65 **Lows:** 55 to 60

Relative Humidity: Minimums: 20 to 25% **Highs:** 30 to 35

Winds: SW/W 6 to 10 mph Gusts to 15 mph

Night winds: E/NE 5 to 8 mph Gusts to 15 mph

Haines Index: 4

See Weather Forecast

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Coastal Sage shrub fuel moisture, primarily chamise and button brush are running below seasonal averages. These fuels will respond to exposure to the sun and dry rapidly.

Abundant standing and down dead fuels remain from the 1999 Kirk and 2008 Basin fires. The heavy fuels have not been affected by the higher humidity and will continue to burn and hold heat waiting for the fine fuels to dry out.

Expect rapid runs in the afternoon where heat, slope and/or winds align with fuels.

Probability of Ignition: 55%

SPECIFIC:

Branch VI and VII: Today will be a transition day, fuels will dry out in the morning and early afternoon. Fire has the potential to become active later in the afternoon and evening. The level of the dry air mass just above the marine layer could impact the fire area early morning and accelerate fuel drying today. Southwest winds will be favorable for holding the Coast Ridge road, but be careful of the 180 degree wind shift that will occur after about 1900.

AIR OPERATIONS: Marine layer could affect visibility in the morning, otherwise visibility should be good.

SAFETY:

Terrain will be a dominant force affecting winds. Expect channeling, eddying and swirling as winds are forced through and over this complex terrain.

Two things are infinite, the universe and human stupidity, and I am not yet completely sure about the universe.
Albert Einstein

<p>TASK: Develop structure protection plan.</p> <p>PURPOSE: Ensure adequate resources and an appropriate strategy is identified to protect structures.</p> <p>END STATE: Resource and Equipment needs are identified and MAPs that allow for successful protection of values at risk.</p> <p>TASK: Assess and complete structure protection at Arroyo Seco.</p> <p>PURPOSE: To protect structures and infrastructure from the fire.</p> <p>END STATE: Hose lays are completed and will adequately provide protection of structures from the fire.</p>			
7. Special Instructions:			
<p>The Communications Plan is complex; please review the ICS 205 with all Division personnel.</p> <p>DIVS, TFLD, and HEQB must account for & certify all hired equipment shift tickets during the operational period.</p> <p>Use headlights. Slow down. Assume there is a vehicle around each corner.</p> <p>Division Supervisors: fire apportionment validation process will be to call Mark Courson at (805) 455-5073 between 0830-1100.</p> <p>"If you see something, say something." Identify and communicate hazards between day and night shift personnel.</p> <p>Keep windshield clean to reduce glare from sunlight, communicate with road guards and other vehicle traffic in assigned work locations.</p>

Soberanes – Safety Message

INCIDENT #CA-BEU-003422

DATE: 09.14/15.2016 TIME: 0700 – 0700

Learn From Today

- Give, and demand, a quality briefing...Every shift!
- Speak up, ask questions, listen and communicate!
- Plan ahead!
- Evaluate the day's activity at the end of shift (AAR).
- Adjust the plan, based on what you learn.

To Improve for Tomorrow!

Recognize the signs of Fatigue

The effects of fatigue can directly hinder our abilities to:

- Perform various tasks
- Maintain situational awareness and a high degree of alertness
- React appropriately in a timely manner and fashion
- Retain a sharp memory and recollection of information
- Efficiently process information and make sound decisions
- Maintain a positive and supportive attitude

Driving

- When driving keep speed at or ***below*** the posted speed limit and your headlights on.
- ***Stay as far to the right of the road as is safely possible.***
- Drive defensively! Expect the unexpected around every curve.
- ***All roads outside the fire area are open to the public!*** Watch for and anticipate civilian traffic.
- Watch out for debris and wildlife on the roads.
- Don't tail gate.
- Always fasten your seat belt before the vehicle is set into motion.
- Reduce speeds on wet surfaces.
- ***Slow down! Slow down! Slow down!***

Operational Leadership

- ***Take Charge*** of assigned resources.
- ***Anticipate*** changing conditions and potential emergencies.
- ***Motivate*** firefighters with a "can do safely" attitude.
- ***Demonstrate Initiative*** by taking action in the absence of orders.
- ***Communicate*** by giving specific instructions and asking for feedback!
- ***Supervise*** at the scene of the action.
- ***Follow-Up*** with feedback and suggestions for improvement.

INCIDENT SAFETY ANALYSIS

September 14/15, 2016

Soberanes Fire

Day/Night Shift

HAZARDS	MITIGATIONS
TRAFFIC HAZARDS & DRIVING	<ul style="list-style-type: none"> • Use roadway warning devices when personnel are close to the pavement • Use caution while driving on all incident roads. • Local Traffic on Highway 1 & Carmel Valley roads will be a challenge during shift changes. • Watch out for wildlife on all roads, especially during the dawn and dusk hours. • Drive defensively! Expect the unexpected around every curve. • Drive with headlights on; use chock blocks, keep windshields clean; look before backing; and use backers whenever available. • Watch for other vehicles, rocks and debris on the roadway. • The roads are very narrow with steep drop-offs, were not in a hurry. • Know that the flagging on the side of the Coast Ridge road indicates a false berm created by dozer operations, stay to the inside of the roadway.
FATIGUE & COMPLACENCY	<ul style="list-style-type: none"> • Be alert for signs of fatigue and take breaks as necessary. • Get adequate rest, follow the 2:1 work/rest guidelines. • Monitor ALL resources for level of fatigue. • Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. • Take steps to maintain situational awareness for the duration of the incident. • Maintain good hydration and healthy food intake.
AVIATION OPERATIONS	<ul style="list-style-type: none"> • Use risk analysis to determine if any given flight is necessary. • Use Air to ground tactical freq. when assigned a specific aircraft. • Use air-to-ground freq. to communicate with air attack. • Use concise statements & clock directions when directing aircraft IRPG pg. 57. • Maintain good separation between ground forces & water/ retardant drops. • Refer to and follow "Aviation Watch-out Situations" IRPG page 44. • Remember Visibility changes minute by minute here on the Soberanes Fire
STRUCTURE PROTECTION & POWER UTILITIES	<ul style="list-style-type: none"> • Develop a plan & ensure All personnel are well briefed. • Follow the IRPG Structure/Interface precautions on pages 12-16. • Notify all personnel of down electrical lines. • Power Line Safety IRPG24. • Always treat downed wires as energized. • Identify & avoid downed wires. • Identify and avoid damaged gas service near structures.
POISON OAK	<ul style="list-style-type: none"> • Identify employees who are highly receptive to poison oak and minimize their exposure if possible. • Ensure all personnel can identify Poison Oak in work, and camp areas. • Clean clothing that has been exposed to areas of Poison Oak. • Check with Medical for treatment when exposed.
COMMUNICATIONS	<ul style="list-style-type: none"> • Share your Situational Awareness (hazards, changes, etc.) Over Communicate!! • Radio Communications may be poor in some areas. Use human repeaters. • Ensure all personnel are familiar with the incident communications plan. Soberanes Fire is using 3 different groups, ensure your using the proper one.
HEAVY EQUIPMENT	<ul style="list-style-type: none"> • Establish positive communications with operator. • Maintain 50-100' exclusion area around equipment. • When in timber increase distances to 2.5 times the height of the trees. • Use spotter when backing. • Avoid working below any type of machinery.
ENVIRONMENTAL HAZARDS SNAKES, BEES BEARS, RACCOONS	<ul style="list-style-type: none"> • Be alert for snakes. Walk slowly, watch footing & hand placement around rocks. • Determine if any personnel under your control are allergic to bee stings. • Flag and avoid areas around known bee's nests. • Utilize line paramedics at the earliest appearance of allergic reaction. • Do not pick up dead animals in order to avoid disease transmission. • Back haul all trash and do not feed the bears and raccoons.

Air Transportation Triage

	<i>Ground or Air Ambulance to Hosp.</i>	<i>Transport to Med Unit</i>
<i>Mechanism</i>	<i>Hit by a falling tree or large branch</i> <i>Fall of 10' or more</i> Insect bite with shortness of breath <i>Signs of heat stroke (hot, dry, disoriented)</i> Burn Injury greater than 1% body area	<i>Minor dehydration</i> Cut or laceration with bleeding controlled Minor bites and Stings Minor burns
<i>Area Injured</i>	<i>Significant Blunt or Penetrating Trauma to</i> <i>Head, Neck, Chest, Abdomen or pelvis</i> <i>Any Arm or Leg fracture above the joint</i>	<i>Minor blunt trauma</i> Minor penetrating trauma Extremity sprains and strains Simple fracture below elbow or knee
<i>Symptoms</i>	<i>Disoriented</i> <i>Chest Pain or Shortness of Breath</i> Weak or absent radial pulse Pale, cold and sweating	<i>Alert and oriented</i> No shortness of breath Good pulses

If air or ground ambulance is DELAYED:

Package and transport patient to rendezvous with ambulance. Re-route EMS helicopter to rendezvous point as appropriate.

If Declaring an "Incident within the Incident"

The closest DIVS will respond to manage the incident. They are responsible for giving an accurate size up, ensuring scene safety, setting priorities and initiating an appropriate response.

The closest Safety Officer and Line EMS will respond to the scene to assist the Branch Director or DIVS. Secure site and begin initial investigation when situation is stabilized.

Prepared By (Communications Unit)				Incident Location							
Sal Bonilla Jr. / Chris Baker COML 4 Ph 831-484-9674				5 MILES SOUTH OF CARMEL, GARRAPATA STATE PARK, MONTEREY CALIFORNIA							

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Kx and 1x reversed.

Air Guard must be in the last channel of every plan (168.6250, PL 110.9 on TX only) Once 205 is complete, email it to com205@fire.ca.gov or fax to the local ECC and ask them to email it for you.

IIBMHB 2016 - PERSONNEL CHAPTER 10

Meal Periods (Actual Hours Worked Employees)

Compensable meal periods are the exception, not the rule (5 CFR 551.411 (c) 36 and 29 CFR 785.19 (a))

Personnel assigned to the fireline may be compensated for their meal period if all of the following conditions are met:

- The fire is not controlled, **and**
- The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, **and**
- The compensable meal break is approved by the supervisor at the next level and it is documented in remarks on the CTR, SF-261.

In those situations where all other incident support personnel cannot be relieved from performing work and must remain at a post of duty, a meal period may be recorded as time worked for which compensation shall be allowed and documented in remarks block on the CTR, SF-261.

For personnel in support positions, and fireline personnel after control of the fire, a meal period of at least 30 minutes must be ordered and taken for each work shift (e.g., a minimum 30 minute break for shifts of 8 hours or more). All meal periods unless justified in remarks must be shown as a 30 minute break.

Local Government responding under CFAA follow their department policy and guidelines regarding hours and meal breaks.

On-Shift Time

On-shift time includes a combination of actual work, ordered standby, and compensable travel. On-shift time has a specific start and ending time and is recorded as clock hours. Each resource is responsible for ensuring they are meeting their 2/1 Work Rest Ratio and/or getting approval in advance from their supervisor and completing a Work Rest/Mitigation form to be approved by IC.

If you have any questions for Finance please call:

EQUIPMENT: 916-591-9012

Human Resource Message

Your Employee Rights and Responsibilities

You have a right to:

- A safe work environment.
- Adequate information, food, sleep, equipment, and transportation.
- Answers to your questions.

But, it's not one-sided. Your help, cooperation and commitment are needed. In order for all fire personnel to be effective, here is an outline of your **responsibilities**:

- **Promote and Maintain Good Communications**
Adequate and accurate communications and information flow are essential for efficient fire suppression efforts and effective interpersonal relations.
- **Maintain an Attitude of Respect and Concern for your Colleagues.**
Fire suppression efforts can only be accomplished by accessing the skills and abilities of a wide variety of people. An attitude of **mutual respect** and **appropriate behavior** is essential for all personnel. Civil Rights violations will be dealt with promptly. If you have a concern, please report it to the Human Resource Specialist, your supervisor, or any member of the Management Team.

YOU are responsible for your conduct and behavior.

Please be reminded that fire camp is a
Drug and Alcohol Free Workplace.

Archaeological and Historical Sites Fireline Guidance for the SOBERANES Incident

One of the values we protect on our National Forest is Heritage Resources, this includes the preservation of Historic sites, Archaeological sites, and sites with traditional or sacred values.

Known archaeological sites are flagged for avoidance with blue flagging tape and yellow and black stripe flagging tape together. Do not compromise safety for the protection and preservation of archaeological and historic sites. When feasible and prudent:

1. ***Be on the lookout for prehistoric and historic sites.*** Prehistoric archaeological sites include boulders and bedrock with mortars and cupules, holes and grinding surfaces, temporary camps containing scatters of stone flakes, and deposits of dark brown to blackish soil with shell fragments (midden) occurring in layers or mounds on flat surfaces near sources of water, along coastal areas and wetlands, along ridges and saddles, and other areas suitable for camping. Historic sites include old wooden cabins, barns, corrals and other buildings, rock foundations and historic artifact scatters. These kinds of resources are often found in the same kinds of environmental settings as prehistoric camp sites.
2. Some archaeological and historical sites have not been flagged yet. If you observe artifacts, features, or sites, attempt to avoid dozing or driving through and/or parking on these sites, if feasible, especially with heavy equipment. Some sites can be protected through avoidance, or by carefully removing flammable materials adjacent to sensitive features, or by wrapping with protective fireproof fabric.
3. If you can't avoid sites, minimize disturbance as much as feasible, only clearing the surface to as minimal a depth and width as necessary.
4. Leave all artifacts in place. Some artifacts may have been intentionally placed for religious or ceremonial reasons.
5. When a site is discovered, flag it for visibility and report its location to a Division Supervisor. ***If feasible, plot locations of discovered resources on a map, and take a gps reading and photograph.*** Leave the information with an archaeologist (in the READ tent) so that sites can be relocated and protected during both the suppression and fire suppression repair phases of the Incident.
6. ***If you encounter a burial or human remains, cease work in the area immediately*** and contact the USFS Archaeologist. State law requires that the Archaeologist contact the Coroner, who will determine if the remains are part of a crime scene.

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4

EXPECTATIONS

Welcome to this Incident.
Thank You for your Cooperation & Support!

August 2015

CONDUCT AND BEHAVIOR

This team is committed to “**ZERO TOLERANCE**” of careless, illegal, inappropriate and unsafe actions.

Alcohol and/or illegal drugs are **NOT allowed** within the incident environment or while actively assigned to the incident. Local Law Enforcement Officials will be called to deal with any suspected illegal activities. Each employee has the responsibility to be ready, willing, and able to perform the duties for which they are qualified.

Sexual Harassment

Inappropriate actions or comments will not be tolerated. Everyone is expected to act in a professional manner. It is your responsibility to stop inappropriate actions or comments immediately upon becoming aware of such. Sexual Harassment must be reported to the Human Resource Specialist or Incident Commander. When outside of your designated sleeping area, you are required to wear at least a shirt, appropriate shorts, and shoes or sandals. If you need clarification of these expectations contact the Human Resource Specialist or IC. What we PERMIT we PROMOTE!!!!

SAFETY

The commitment to and accountability for safety is a joint responsibility of firefighters, managers and administrators. Individuals must personally be committed and responsible for their own performance and accountability. Everyone assigned to this incident can expect an assignment that follows all safety rules & regulations. Every person is expected to perform his or her duties in compliance with all known safety practices at all times. Anything less is unacceptable.

EMPHASIS AREAS

Training

All trainees and trainers are expected to follow the procedures outlined in the California Interagency Incident Management Team 4 **Training Expectations – See back page.**

Evaluations

All supervisory personnel assigned will complete an ICS 225 Incident Personnel Performance Rating form for their assigned resources according to agency policy or contractual agreement.

Injuries/Claims

Ensure all injuries and potential claims are reported to the Comp/Claims Unit for completion of appropriate paperwork. Contract claims will be reported to the Procurement Unit Leader.

Work Rest Cycles

The 2: 1 work/rest ratio is mandatory. For every two hours on shift you will be required to rest for one hour. Every effort shall be used to limit work hours to a maximum of 16. If circumstances require you to exceed 16 hours, this needs to be coordinated in advance with your supervisor and the Justification/Mitigation form completed to support the excessive hours prior to submitting for approval by the IC. It is your responsibility to comply with this direction and provide the appropriate documentation to your Supervisor and Finance.

Position Qualifications

Personnel shall only be assigned to positions for which they are qualified. Proof of qualifications shall be approved prior to being assigned to any fire line position. Non-fireline positions may be filled based on the word of the employee pending home unit confirmation, which must be requested immediately. Contract dozer operators, tactical water tender operators and contract fallers must provide proof that they have received the annual fire refresher training.

Engagement/Disengagement

The 10 Standard Orders & 18 Watchout Situations will be followed at all times and mitigated as needed. Staying aware of your situation is critical. This includes Geographic Area and incident briefings. Follow the Risk Management Process outlined in the Incident Response Pocket Guide.

Debriefing

All Branch Directors/Division/Group Supervisors will report to their Supervisor and Situation Unit at the end of the operational period for debriefing with emphasis on the accomplishment of objectives. All unit logs (ICS 214) will be turned in after the debriefing to Documentation reflecting accomplishment and/or special incidents that occurred during the operational period.

Crew Time Reports/Shift Tickets

It is your responsibility to ensure all time is properly accounted for and recorded each shift. The records are to be reviewed and signed by the next level supervisor. A finance "Rules of Engagement" document will be provided in the IAP explaining further requirements.

Social Media

It is your responsibility to know and understand guidelines for firefighter photography, video and social media use. California Interagency Incident Management Team 4 goal is simple: to participate online in a respectful, relevant way that protects our incident's professional reputation, does not confuse the public about the incident and follows the letter and spirit of the law. Be mindful that social media postings can be viewed as unprofessional, damage careers and lead to disciplinary actions. For further information, contact the Public Information Officer.

We look forward to working with you as a valuable member of this effort. If you have any questions or feedback, please feel free to contact any Command and General Staff Member.

ROCKY W. OPLIGER
Incident Commander

SCOTT VAIL
Deputy Incident Commander

THANK YOU FOR YOUR COOPERATION AND GOOD WORK!!

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4 TRAINING EXPECTATIONS

1. Upon arrival at the incident and after check-in, the trainee will bring the following documents to the initial meeting with the training specialist:
 - a. A properly initiated Position Task Book.
 - b. Your Request Number and your Agency (3) letter identifier.
 - c. Your agencies Fire Chief or Training Officers name, address, and phone number to insure that a copy of the training documents will be mailed back to your home unit.
 - d. Your current Incident Qualification Card (red card) that identifies you as a Trainee in the position you are seeking to be trained.
2. Have you identified or has a Trainer been assigned to you and if so, have the Trainer present when you meet with the training specialist.
3. At closeout and prior to entering the demobilization process, you should complete, sign, and review with the trainer the Final exit interview form. Once the form is complete, bring the following documents to the Training Specialist for closeout;
 - a. Position Taskbook (Evaluation Record dated and signed by the Trainer).
 - b. Completed ICS 225 (Personal Evaluation Record) dated and signed by both the trainee and trainer.
 - c. Completed Final Exit Interview Form – dated and signed by both the trainee and the trainer.

Trainer Expectations

1. Arrive with the Trainee at the initial meeting with the Training Specialist.
2. Be ready to provide your Contact information and your Incident Request number.
3. Have a Current Incident Qualifications Card (Red Card) in a position of equal or greater qualifications that the Trainee is trying to achieve.
4. Be willing to educate, support, and provide professional and consistent feed back to the trainee during the assignment.
5. Throughout the incident the trainer shall continue to monitor and review with the trainee their tasks and goals within the taskbook.
6. The trainer, where appropriate is expected to sign off task's that are achieved by the trainee and to complete and sign the following documents.
 - a. ICS 225 (Personal Evaluation Form)
 - b. Evaluation Record at the back of the taskbook.
7. The trainer shall portray a positive and professional attitude that lets the trainee know that it is desirable to ask for direction and feedback.
8. When accepting the role as a trainer, you are expected to act in a professional manner that represents the California Interagency Incident Management Team 4 and your home agency.
